In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

† Figures not available.

Explanation of symbols used :—B.—Births, B.R.—Birth Rate; C.—Cholera; S.—Smallpox; P.—Plague; F.—Fevers; D. D.—Dysentery and Diarrhoea; R.D.—Respiratory Diseases; M. D.—Maternal Deaths; D.R.—Death Rate; I.D.—Infantile Deaths (included in total death); ..—Nil information.

REMARKS

The figures of births and deaths shown in this statement for week ending the 14th May, 1955, relate to 186 towns with an estimated population of 25,997 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 62% of the total number of towns representing 67% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,178 and 7,154 representing birth and death rates of 28.4 and 14.3 per thousand of population respectively.

(a) *States (Parts A and C)* :—The data here relate to 162 towns with an estimated population of 22,773 thousands. Information about Ajmer, Bihar, Bhopal, and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 64% of the total number of towns representing 70% of the total population is covered. The number of births and deaths recorded in these towns were 12,854 and 6,355 representing

birth rates and death rates of 29.4 and 14.5 per thousand of population respectively. The table at the end gives the position by States.

Nellore in Andhra State was the only town which recorded a high death rate of 58.8 per thousand of population and this high death rate was due to Fevers Dysentery & Diarrhoea and other Respiratory diseases.

(b) *States (Part B)* :—The data here relate to 24 towns with an estimated population of 3,224 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 50% of the total number of towns representing 50% of the total population is covered. The number of births and deaths recorded in these towns were 1,324 and 799 representing birth and death rates of 21.4 and 12.9 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
